Career Objective

Hardworking and passionate learner focused on research and development. I am interested in building innovative technologies through exploration and experimentation.

Education

Bachelor of science in Computer Science and Engineering, American International University Bangladesh

Undergraduate: 2025 | CGPA: 3.96

HSC, Rajshahi Govt City College | 2020 | GPA: 5.00

SSC, BIAM Laboratory School and College | 2018 | GPA: 5.00

Skills

Languages: C++, Python, Java, PHP, JavaScript, HTML, CSS, C#

Tools/Libraries/Frameworks: React, Django, Tailwind, MySQL, PostgreSQL, JSON, XML

TensorFlow, PyTorch, Gymnasium, Stable-Baselines,

Projects

- Food Hub – Online food delivery for local restaurants [Java]
- Library System – Desktop app for managing books [C# .NET, MySQL]
- Canteen System – Web app for canteen operations [HTML, CSS, JS, PHP, MySQL]
- RL Algorithms Evaluation – Compared DQN & DDQN on CartPole-v1 [Python, Gym, ML libraries]
- Predicting IC50 Values for SARS Coronavirus 3Clike Proteinase Inhibitors – Used SVR on ChEMBL molecular data to predict drug candidate potency [Python, PaDEL, ChEMBL, ML]

Achievements

- Presented research paper at an international conference (Indonesia)
- Received Dean's List Award (2 times)

Languages

Bangla (Fluent), English (Fluent)

Extracurricular

- Organized events at Environment Club
- Participant in science fairs & Olympiads during school
